

Job Ad for Marine Electrician

Company Overview:

On Board Marine Group Limited is a dynamic and innovative company committed to delivering excellence in our products and services.

We are seeking a skilled and experienced Marine Electrician to join our team.

Position: Marine Electrician

Location: Wong Chuk Hang

Job Type: Full-time

Key Responsibilities:

- **Electrical Systems Installation and Maintenance:** Install, repair, and maintain electrical systems on boats and yachts, including wiring, lighting, navigation equipment, communications and power distribution systems.
- **Troubleshooting and Diagnostics:** Diagnose and resolve electrical issues in marine environments, ensuring systems function effectively and safely.
- **Service and Repairs:** Perform routine maintenance and emergency repairs on electrical systems, ensuring all work complies with safety standards and regulations.
- **Technical Support:** Provide technical support and advice to clients on electrical systems, equipment upgrades, and best practices.
- **Documentation and Reporting:** Maintain accurate records of work performed, parts used, and any issues identified. Prepare detailed reports and documentation for clients and management.
- **Customer Interaction:** Communicate with clients to understand their needs, provide updates on progress, and ensure high levels of customer satisfaction.
- **Compliance:** Ensure all work adheres to maritime regulations and industry standards.
- **Travel:** Must be willing to travel if required.

Targeted Skills and Experience:

- **Marine Electrical Experience:** Extensive experience working as a marine electrician with a strong understanding of electrical systems specific to boats and yachts.
- **Electrical Systems Knowledge:** Deep knowledge of marine electrical systems, including DC and AC circuits, battery systems, and navigation electronics.

- **Troubleshooting Skills:** Proven ability to diagnose and repair electrical faults in marine environments.
- **Customer Service:** Excellent communication skills for interacting with clients and providing technical support.
- **Technical Skills:** Proficiency with electrical tools and equipment, including diagnostic tools for marine systems.
- **Safety Compliance:** Strong adherence to safety protocols and maritime regulations.
- **Certification:** Relevant certifications in marine electrical work or similar qualifications preferred.

You should be:

- Fluent in both spoken and written English
- Highly organized, self motivated and enthusiastic.
- Service-oriented and a team player.

Compensation:

- **Basic Pay Package:** Competitive salary based on experience.

Benefits:

- Health insurance plan.
- MPF Insurance.
- Generous holidays package.
- Opportunities for professional development and advancement within the company.
- Collaborative and supportive work environment.
- 5 day work week.

Joining OBMG means becoming an integral part of our diverse and talented team, committed to delivering innovative solutions and unparalleled service to clients worldwide. We're confident that your expertise and experience will support and enhance our marine service offerings.
