TracPhone® HTS-series

The high-speed revolution
in marine communications

The most advanced maritime network available

Our HTS network offers critical advantages for you, your guests, and your crew, including:

The most advanced managed HTS network with 272 million square kilometers (105 million square miles) of KVH's industry-leading Ku-band VSAT coverage, plus C-band coverage with the TracPhone V11HTS

A high-speed global network that delivers speeds as fast as 20/3 Mbps (down/up) using the TracPhone V11HTS, 10/3 Mbps with the TracPhone V7HTS, and 5/2 Mbps using the TracPhone V3HTS*

6-Level Cybersecurity Program, including advanced network-level firewall with automated threat management to provide additional security; plus, every system comes loaded with the award-winning KVH Videotel™ "Cybersecurity Safety at Sea" training program to help reduce risk due to human behavior

Greater resilience to weather and rain fade than Ka-band services

Crystal-clear, prioritized voice service for exceptional call quality; all systems also support Wi-Fi Calling via compatible cell phones*

Automatic, fast switching among the network's worldwide, redundant beams for seamless and reliable communications wherever you travel

*Requires Wi-Fi Calling support via your cell phone service provider

New! TracPhone V11HTS
1.1 m Ku/C-band antenna
20/3 Mbps (down/up)*

TracPhone V7HTS
60 cm Ku-band antenna
10/3 Mbps (down/up)*

Keeping you connected at sea with **high speed and expanded coverage**

Travel the seas with confidence and blazing fast connectivity with the TracPhone HTS-series from KVH. Powered by our high-speed worldwide network and providing extended global coverage, the TracPhone V7HTS and the new TracPhone V11HTS each offer KVH's latest advances in marine satellite communications and performance to deliver everything you want in a single package:

Blazing Speeds

High-speed data channel perfect for things like video chat, social media, video and music streaming, web browsing, and more

Unlimited Use

An unlimited use data channel offering a variety of speed-based plans for email, messaging, IoT, and more (TracPhone V7HTS and V11HTS only)

Affordable Pricing

New, flexible airtime options to fit the needs of every size or type of yacht

Brought to you by the No. 1 maritime VSAT network – KVH mini-VSAT Broadband[†]

High-speed, dual-channel systems

TracPhone V7HTS and V11HTS each offer unmatched speed using new next-generation, high-throughput satellites (HTS) from Intelsat and additional capacity from SKY Perfect JSAT, all integrated within the Intelsat Flex Maritime platform. The unique dual-channel configuration provides both high-speed and unlimited use data channels to best meet the needs of you and your guests.

Premium equipment and seamless global coverage

The TracPhone HTS-series state-of-the-art antennas deliver exceptional reliability and tracking even in rough seas. Sophisticated software provides versatile data controls and management. Plus, the TracPhone V11HTS has a unique dual Ku/C-band design with automatic switching to deliver expanded global coverage, including Northern and Southern latitudes, and superior connectivity, even in extreme weather.

The Power of One™

With 24/7/365 support in more than 3,500 ports worldwide and the industry's most flexible airtime plans, the TracPhone HTS-series is part of KVH's seamlessly integrated marine communications solution, which makes your time onboard more enjoyable and worry-free than ever before. **That's the KVH Advantage.**

NEW!

TracPhone V11HTS

The TracPhone V11HTS sets a new standard in marine communications. At 20 Mbps, it delivers the fastest speeds, redundant Ku/C-band services, and greatly expanded coverage. With its advanced technology, sleek design, and superior reception in extreme weather, the TracPhone V11HTS meets the demanding expectations of boaters worldwide.

View complete product specs: kvh.com/v11htsspecs

"We are very dependent upon the KVH TracPhone V7HTS Ku-band antenna with the worldwide mini-VSAT Broadband HTS network. We use it for 24/7 data communications and it also gives me a phone number with a Seattle area code. It would be very difficult to do this trip without the TracPhone. It's been a real enabler for us."

J. Hamilton, M/V Dirona

Exclusive to the TracPhone V7HTS & TracPhone V11HTS: Dual channels, one powerful solution

Get the speed and control your adventures require with KVH's exclusive dual-channel configuration that offers both a high-speed and an unlimited use data channel through unique hybrid airtime plans ideally suited to the needs of everyone onboard.

TracPhone V3HTS

The world's fastest, lightest ultra-compact marine VSAT

37 cm Ku-band antenna
5/2 Mbps (down/up)

The TracPhone V3HTS outperforms leading competing 60-85 cm Ku-band antennas and lets you get more out of life on your boat. Ultra-compact at 37 cm, lightweight, and packed with power, the TracPhone V3HTS makes it easy for you and your guests to stream HD content, video chat, connect with the office, get weather information, check emails, and more. With simple metered plans all delivering 5/2 Mbps, the TracPhone V3HTS is an ideal solution for smaller boats or as a blazing fast VSAT backup for superyachts.

Industry's Highest Speed Plans as fast as 20/3 Mbps down/up

- ▶ Simple tools to control data usage
- ▶ All plans offer fastest network speeds
- ▶ Ideal for: videoconferencing, video chat (e.g., via WhatsApp™ or Skype), telemedicine, web browsing, security cameras, on-demand file transmission, video & music streaming, allocated crew usage

Industry's Fastest Unlimited Plans as fast as 8/2 Mbps down/up

- ▶ Speed-based plans to fit every need
- ▶ Fixed monthly price – no overage
- ▶ Ideal for: IoT data transfer, email, software updates, instant messaging (e.g., WhatsApp), automated file transmission, social media, weather updates, VPN, unallocated crew usage

Use BOTH to deliver the best experience for you, your guests, and yacht operations!

Creating confidence through control

Enjoy complete visibility of and control over operational and personal data usage thanks to the secure myKVH™ portal and the mini-VSAT Manager suite of tools:

- ▶ View detailed daily and monthly data consumption reports and how that data is being used
- ▶ Limit unintended background data use by protocols like Apple iCloud®, Google Drive, and Dropbox with built-in data shaping
- ▶ Assign daily/weekly/monthly data allowances to help you, your guests, and your crew to stay within your monthly data plan
- ▶ Set up and receive usage alerts to stay up to date on your monthly data consumption
- ▶ See real-time vessel tracking with up to one year of position data updated as frequently as every 90 seconds

View detailed data usage by application category

The engine that drives it all

The Integrated CommBox Modem (ICM) with its high-throughput modem, Voice over IP (VoIP) adapter, versatile CommBox™ network management software and built-in Wi-Fi and Ethernet, is the streamlined all-in-one belowdecks unit that drives the TracPhone HTS-series. Its easy-to-use interface allows you to easily operate and configure your system.

Superior performance via KVH Proactive Monitoring

Every TracPhone HTS-series system reports daily on 95+ key performance indicators. KVH engineers and support specialists can then respond proactively to optimize your system's performance so you enjoy a premium experience and get more out of your time on the water.

"We were in Fiji, so when my ETO came to me to explain the problem my heart sank, as we were so close to departing to pick up the owner of the yacht. When I heard that a new KVH antenna and an engineer was on the way, I could hardly believe it. In over twenty years working aboard superyachts, this has to be the best and most impressive service that I have ever received."

G. Newton, S/Y Hetarios

"I have logged more than 300,000 ocean miles in my career, always with KVH products on board and KVH support on call. The clients I represent also demand the best and fair value. That's why KVH and its systems and services are a perfect match for us."

"The new TracPhone V7HTS delivers great data speed and we enjoy outstanding TV entertainment thanks to TracVision. Through it all, KVH and its team has kept its personal connection, outstanding support attitude, and innovative technologies, making our choice of KVH a win-win for all!"

T. Laughridge, M/V Lady Victoria

Protect your investment with KVH OneCare™

Our global support program protects your VSAT investment and helps you minimize your costs. With KVH OneCare, you enjoy the marine industry's most comprehensive array of services including:

- ▶ Application Engineering, Solution Deployment, and Operating Support for the life of your product
- ▶ A 2-year parts and labor warranty along with the option to extend warranty coverage to as many as 5 years

Bring the best onboard with KVH

The results speak for themselves. In any harbor, anywhere around the world, you'll see KVH's distinctive white antennas with gray baseplates. With more than 200,000 mobile antennas fielded worldwide, KVH has supplied more satellite communications and TV antenna systems for mobile applications than any other manufacturer. **When you choose KVH, you choose the best!**

TracPhone V7HTS/V11HTS Coverage
